

PRESERVE AND TRANSFORM SCHOOL DISTRICT FACILITIES WITH A RENOVATION REVOLUTION

NAVIGATING THE CROSSROADS

K12 education is at a crossroads —the intersection of adapting to an ever-evolving technological revolution in the 21st century, while doing more with less due to shrinking budgets.

Renovation creates a clear path from your past to your future. At BLDD Architects, we help school districts navigate this journey by transforming both historic and underutilized spaces through cost-saving renovation.

OUR GOAL IS TO RESTORE LIFE, VIGOR AND ACTIVITY TO YOUR DISTRICT BY REIMAGINING ENVIRONMENTS TO CREATE TRULY TRANSFORMATIVE ARCHITECTURE.

HOW CAN YOU CREATE A **RENOVATION REVOLUTION** IN YOUR DISTRICT?

RE•INVENT

Transform an underutilized area of your district into a thriving destination that re-energizes the student-learning experience.

RE•STORE & RE•NEW

Preserve the iconic qualities of your facility, while reimagining its use for the evolving needs of your student body.

WHAT IS THE VALUE?

Renovation can offer a sustainable, efficient and cost-saving solutions.

Historically, our clients have saved 20-25% by investing in major renovations compared to building new.

Some of the values of renovation include:

- » **Material Savings** — requires fewer “new” materials, and thus creates less landfill waste
- » **Societal Savings** — reduces displacement in urban communities

- » **Time Savings** — typically faster than new construction
- » **Cost Savings** — many federal, state and local municipalities offer tax incentives and/or grants for renovating historic buildings
