

REFRESH AND TRANSFORM RELIGIOUS FACILITIES WITH A RENOVATION REVOLUTION

NAVIGATING THE CROSSROADS

Religious facility design is at a crossroads — the intersection of preserving a rich history and responding to an ever-changing landscape of future-focused congregations. At BLDD, we help church communities navigate this journey as effortlessly as possible through innovative, transformative renovations of historic, underutilized and reimagined spaces.

OUR GOAL IS TO RESTORE LIFE, VIGOR AND ACTIVITY TO YOUR CHURCH BY RE-IMAGINING ENVIRONMENTS TO CREATE TRULY TRANSFORMATIVE ARCHITECTURE.

HOW CAN YOU CREATE A **RENOVATION REVOLUTION** AT YOUR FACILITY?

RE•INVENT

Transform an underutilized area of your church or create a new worship destination by reinventing an existing space for a different purpose.

RE•STORE & RE•NEW

Preserve the iconic qualities of your church, while updating and re-imagining its use to best serve your congregation.

WHAT IS THE VALUE?

Renovation can offer a sustainable, efficient and cost-saving solutions.

Historically, our clients have saved 20-25% by investing in major renovations compared to building new.

Some of the values of renovation include:

- » **Material Savings** — renovation requires fewer “new” materials, and thus creates less landfill waste
- » **Societal Savings** — renovating existing facilities reduces displacement in urban communities
- » **Time Savings** — renovation is typically faster than new construction
- » **Cost Savings** — many federal, state and local municipalities offer tax incentives and/or grants for renovating historic buildings
